

GOSPEL REFLECTION FOR THE ASSUMPTION OF THE BVM

A Special Place for Mary

Catholics are a little different from other Christians. We are the ones with a very special place in our hearts for Mary. Our devotions might seem a little sentimental to others, but this is not the case. Mary, often depicted as meek and mild, was in fact a woman of great strength and insight. More to the point, Mary is on the side of ordinary men, women and children everywhere.

Today Mary tells us about a liberating God who is all about turning human values upside down. We may look up to the rich, the successful and the glamorous but God doesn't. We may aspire to be like our X-Factor idols but this isn't the Christian aspiration. Of God, Mary tells us, "He has pulled down princes from their thrones and exalted the lowly." "The hungry he has filled with good things, the rich sent empty away."

Mary voices God's opposition to oppression, injustice and greed. Mary, herself a 'lowly servant', is on the side of all those who find life a daily struggle. Is it any wonder we so often pray for her intercession, particularly in these days of difficulty?

Luke does not mention the death of Mary in his writings, but by the sixth century, Christians had already begun to speculate about the nature of Mary's death. They could not believe that Mary's body underwent decay after the unique role she had played in history. The dogma of the Assumption, founded in the origins of popular faith, was proclaimed in 1950 by Pope Pius XII.

Beirut Emergency Appeal - On the evening of Tuesday 4 August, two explosions at the port of Lebanon's capital city of Beirut sent an enormous shockwave across the city killing over 200 people and leaving more than 4,000 injured. Thousands of families were affected by the explosion. Many of them have slept in shattered homes or temporary accommodation, while also facing the deadly threat of the coronavirus pandemic. We are invited to donate

Care for our Common Home: Hottest Summer on Record - Summer 2020 is likely to be another of the hottest on record, with global temperatures forecast to be more than 1.1°C above the pre-industrial average, according to estimates from the Met Office. The forecast for 2020 is based on observations of trends over recent years that have seen a series of years more than 1C above pre-industrial levels and bearing what meteorologists said was the "clear fingerprint" of human-induced global heating. Things we could do:

- * Think about the impacts of your actions on our fragile planet in everything you do.
- * How many of your friends and family can you persuade to use 'Ecosia' the search engine that plants trees.
- * The Amazon and other forests are being slashed and burned and replaced with cattle farms and soya plantations to produce meat. This brutal system is accelerating climate change, harming Indigenous Peoples, destroying our natural world, and risking future pandemics. *Sign the petition at greenpeace.org.uk requesting that Tesco stop destroying forests for meat.*
- * Trees are our natural allies against climate breakdown. They absorb carbon emissions while also providing a home for wildlife. But over the centuries we've cleared our forests, leaving the UK with some of the lowest levels of woodland in Europe. If the government is serious about protecting the climate, it needs to bring back our lost trees. *Sign the petition at friendsoftheearth.uk*
